

## Bio

*Three hard working men that never let their dream fade away, after dealing with their own demons and responsibilities they said “enough is enough” and went... Alcosolid!*

Alcosolid was formed in November 2011 in Hilversum, the Netherlands. When Harry met Wijn they started jamming for a while until Juan Carlos jumped on board. Since then, they kept rockin' nice and loud! Their tunes are an intriguing mixture of modern and classic hard rock with an occasional heavy metal attitude.

Their sound is mostly influenced by bands of the early 90s. Fans find similarities with artists like Pearl Jam, Alice In Chains and even Soundgarden.

They recently recorded a demo of five songs and are booking gigs to spread the word while they compose new material.

## Members

Harry - Guitars and Vocals

JC - Bass

Wijn - Drums
